

Spring 2004

## From the Operation Manager's Desk

Dear Deer Crest Property Owner,

This winter proved to be one of extremes. Some of the biggest storms and coldest temperatures in ten years got the season off to a great start. The trails that were able to open on Deer Valley's opening day were in great shape and the additional trails that open with Deer Valley's Jordanelle run were opened on December 22<sup>nd</sup>, five days earlier than years past. The snowmaking crew utilized our new larger snow gun and two million more gallons of water in this winters snowmaking operations. While we entered March with the best conditions in a decade, no one could foresee what was in store for us. The biggest above average warm spell in eighty years hit Utah and "spring conditions" were the rule for the rest of March and April.

We had the opportunity to meet more of our owners this winter as they enjoyed the facilities. We encourage everyone to stop in and meet the crew and tour the Gate Houses or Maintenance Building. As we are taking on more of the operations of Deer Crest, we are very proud of the personnel and equipment we have assembled to keep the property in the condition a development of this caliber deserves.

As we switch seasons at Deer Crest, we hope many of you will be able to take advantage of the beautiful weather and all the amenities that Park City has to offer in the summer. We will be busy with the seasonal maintenance of the property and the ongoing "greening" of Deer Crest, planting more evergreen trees and spreading more grass seed.

The official turnover of ownership of common areas from the developer to the Master Association is proceeding. Board of Trustee Members Bob Sammons and Tom Hodgson and resident Phil Lippencott are heading up a committee, which hired an engineering firm and legal council to oversee this process and assure the owners are receiving quality infrastructure.

Utah is in the midst of a six year drought cycle and is experiencing mandatory water conservation in some areas, but we have good news for Deer Crest Homeowners. Jordanelle Special Service District, which provides your water, has lowered its rates! The old rates were \$55 for the first 12,000 gallons, and \$15 for each additional 1000 gallons used. The new rates are \$32.19 for the first 10,000 gallons, and \$2.37 for each additional 1000. While we should keep in mind that we live in a desert climate and practice conservation when ever possible, you should see some more reasonable water bills this summer.

We are very happy to be the managers of the Deer Crest Master Association and enjoy the scope and variety of work it takes to operate the facilities for you, the owners. We are committed to the success of Deer Crest, look forward to working with you during the coming year and, as always, are interested in your ideas and input.

Best regards,

Don K. Taylor  
Operations Manager

## Hotel Update

The development team for the hotel has continued to make progress. Last month Park City approved the application for a conditional use permit and a new plat map amendment for the hotel. The hotel has been reconfigured and a change in the plat was necessary in accommodating the new layout. Negotiations are still under way with a new operator for the hotel, but no formal announcement can be made at this time.
